

SWISS SILVER

A Higher Class of Oil

No Staining Resins - Your Machine Stays Clean and Varnish Free

Low Mist - Ideal For High Pressure Delivery Pump Systems

Low Viscosity - Ideal for Small Diameter Coolant-Thru Tooling

Premium Cutting Oils

Formulated for CNC Swiss-Type Machines

TYPE A - Most Metals

TYPE B - Ferrous & Tough Alloys

A

Swiss Silver Premium - Most Metals

Our Standard Premium HIGH PERFORMANCE product, Ideal for all Swiss-Type Machines or Small Parts Turning Centers. Provides extended tool life in Ferrous and Non-Ferrous applications. Minimal air entrainment reduces misting under medium pressure coolant delivery.

Type A: LCO-SS00-A00--MGS

Type B: LCO-SS00-B00-MGS

AB

Swiss Silver AB - Aluminum & Brass

Specifically formulated for enhanced surface finish results in Aluminum, Brass & Copper applications. Prevents tarnishing of yellow metals. Features low air entrainment for low mist under medium pressure coolant delivery.

LCO-SSAB-000-MGS

HM

Swiss Silver HM - Hard Metals

A special formulation of Swiss Silver designed to enhance the machining of "Hard Metals" such as high nickel materials, Inconel, Hastaloy, and other tough-to-machine exotic alloys . Includes the tool life enhancing additives and low misting agents offered in other Swiss Silver variants.

Type A: LCO-SSHM-A00-MGS

Type B: LCO-SSHM-B00-MGS

HP

Swiss Silver HP - High Pressure Delivery Formula

An enhanced formula of the standard premium cutting oil product that greatly reduces the mist and air entrainment under high-pressure pump coolant delivery applications found in many Swiss-Type machining operations.

Type A: LCO-SSHP-A00-MGS

Type B: LCO-SSHP-B00-MGS

VX

Swiss Silver VX - Vegetable Based Formula

A High Performance vegetable based cutting oil product that provides pure lubricity and unparalleled surface finish on ferrous and non-ferrous parts. Biodegradable and environmentally acceptable for fulfilling 'green' manufacturing objectives.

Type A: LCO-SSVX-A00-MGS

Type B: LCO-SSVX-B00-MGS

Special formulations are also available for custom applications. Low or no Chlorine formulas available on request.
